What are Trauma-Informed Schools?

A trauma-informed school is a safe & respectful environment that **realizes** the prevalence of trauma, **recognizes** the signs of trauma and needs for support, and **responds** in a way that **resists retraumatization**. The ways it does this is through:

- Building safe and supportive environments
- Establishing strong developmental relationships
- Focusing on co-regulation behaviors in the classroom
- Supports physical and mental health & well-being

What is a Trauma-Informed Schools Checklist?

The purpose of this checklist is to identify areas of effectiveness and growth in creating a trauma-informed school environment. Pages 3-8 pertain to the 6 principles of trauma-informed schools as developed by SAMHSA. Each principle is broken down by indicators, which are designed to assess the degree to which the 6 key principles are being implemented across a range of settings in the school (e.g., classroom, hallways, common outdoor spaces, etc.).

This checklist was originally developed by the New Orleans Trauma-Informed Schools Learning Collaborative, now known as the Coalition for Compassionate Schools (CforCS). CforCS is a program of the New Orleans Health Department that includes partnerships with community-based organizations and schools in New Orleans. This checklist draws on existing instruments designed to assess trauma-informed policies and practices, and incorporates feedback from partner schools.

Walk-Through Checklist

Checklist Instructions:

Read over the checklist beforehand - You can complete the checklist while you are physically present in your assigned setting *OR* after observing your setting. However, you should familiarize yourself with the principles and indicators before observing.

Determine which setting you are assigned to observe – All of your responses on the checklist should pertain to *that setting alone*.

Complete the sections on this page – Include the name of your school, the day the observation was done, and your name(s). Indicate which setting you will be observing using the check boxes. Do not indicate more than one setting.

Complete pages 3 - 8 – Mark the box that corresponds to the degree to which an indicator is in place in the setting that you observe. The options are *1 - not at all, 2 - partially, 3 - mostly, and 4 - fully*. Provide a response for **EACH AND EVERY INDICATOR** and for **ALL 6 PRINCIPLES**. Do not skip any indicators or pages. If the indicator is not applicable to your setting, mark *x - no opportunity to observe*. Af

Take notes on page 9 - Write any observations or reactions to the checklist or assigned setting in the spaces provided on page 9

Debrief Questions

1. After doing your walk-through and observing various settings through this lens, in your own words, what does it mean to be a trauma-informed school/workplace? (connecting it to this year as an exploration year, a year of shared learning, and reiterate the 3R's)
2. What themes came up for you? That made you excited/motivated? Concerns/questions?
3. How did what you thought you would see compare to what you actually saw?
4. How does a trauma-informed school/workplace impact your school meeting their academic/CEO mandated/strategic goals?
5. What are the things we need to learn in order to move closer towards a trauma-informed school/workplace?
